Women Artist's Organizations Serving Chicago Area:

WEB - Chicago Chapter - WEB functions as a communication group to women artists. Though the meetings are geared to the local area, we are constantly aware of and including our sisters across the country in the web of communication via our newsletter and recently in our Women Artists Conference. We are a support and information agency and in that disbursement of information is included the Chicago WEB registry, a registry of biographical data and slides of area women artists. This registry is available to interested groups and individuals as an educative tool in "what women are doing in the midwest."
